HEMANTH CHUNDURU

BUSINESS ANALYST / ACTING PRODUCT OWNER

HYDERABAD, INDIA • +91 93478 46506 • CHUNDURUHEMANTH2002@GMAIL.COM • LINKEDIN

SUMMARY

Product-focused Business Analyst with 2+ years in enterprise healthcare SaaS. Owned 8 Projects (managing 2-3 concurrently), authored ~200 user stories, and delivered a major Project (~1,000 story points) in an accelerated window (09/2025 - 11/2025), advancing go-live by ~4.5 months. Expertise in requirements synthesis (BRD/PRD/SRS), API documentation, integration validation, UAT coordination, and cross-functional stakeholder alignment.

CORE COMPETENCIES

- Requirements gathering
- BRD/PRD
- SRS
- Project ownership
- User stories
- Acceptance criteria
- Backlog grooming
- Story mapping
- Prioritization
- REST APIs
- API documentation
- Postman
- SQL
- Data mapping
- Integration testing
- UAT coordination
- Power BI
- Reporting
- Agile/Scrum
- Jira
- Confluence
- Figma
- Notion
- Stakeholder management

TECHNICAL TOOLKIT

API & Integration: REST APIs • API documentation • Postman • Data mapping • Integration testing • UAT coordination
Product Management Tools: Agile/Scrum • Jira • Confluence • Figma • Notion • Stakeholder management
Databases: SQL
Analytics: Power BI • Reporting

EXPERIENCE

Sep 2023 - Mar 2026

Business Analyst / Acting Product Owner | HealthEdge | Hyderabad, India

- Owned end-to-end delivery for multiple Project level initiatives across Utilization Management and clinical workflows; managed 8 Projects concurrently with 2-3 running at the same time
- Led Service Plan Modernization Project (09/2025 - 11/2025): Authored ~200 user stories, delivered a Project of ~1,000 story points in an accelerated delivery phase, advancing go-live by ~4.5 months and enabling a high-value customer rollout
- Drove Medical Director Review (MDR) redesign by reworking clinical review flows to improve decision accuracy, compliance traceability, reviewer usability and reduce navigation steps
- Reduced module defect backlog from three-digit to single-digit through prioritized backlog refinement, clarified acceptance criteria, and targeted validation/UAT cycles

- Documented and maintained ~8-12 external API endpoints; defined request/response payload standards and validation rules and validated integrations via Postman to accelerate partner UAT
- Acted as the central liaison between Product, Engineering, QA, UX, Data, and Operations; facilitated stakeholder alignment sessions, trade-off decisions, sprint planning, and walkthroughs
- Leveraged AI assisted documentation workflows to standardize BRD/PRD artifacts and speed up requirements synthesis
- Led configuration and Figma based UI/UX validations and coordinated accelerated UAT cycles to ensure delivered solutions met business intent

Jan 2023 - Jun 2023

Software Engineering Intern | ARCON | Mumbai, India

- Supported development and testing of enterprise security and identity solutions; collaborated with senior engineers on feature implementation and quality focused delivery
- Assisted in defect triage, test case preparation, and integration checks to improve release stability

EDUCATION

JUN 2019 - MAY 2023

Bachelor of Technology, Computer Science

Vellore Institute of Technology (VIT), GPA: 8.12

KEY PROJECTS

Service Plan Modernization, GuidingCare Platform

- Modernized legacy service plan workflows into guided, configurable, authorization driven experiences
- Owned requirements, API integrations, validations, reporting dependencies, and UX updates

Medical Director Review (MDR), UM & Appeals

- Redesigned clinical review workflows to align with regulatory traceability and reviewer usability
- Simplified navigation and improved audit readiness

CERTIFICATIONS

- Technical Product Management
- MERN Stack Developer
- SQL Database
- AWS Academy Cloud Foundations - AWS (training badge)
- AWS Certified Cloud Practitioner - AWS (Certification dates and IDs available on request)

LANGUAGE

- English (Fluent)
- Telugu (Fluent)
- Hindi (Fluent)

ADDITIONAL HIGHLIGHTS

- Expertise in enterprise SaaS and healthcare technology
- Proficient in NCQA & CMS related compliance and audit workflows
